

# تشخیص مجلات معتبر

صغری گلمنانی

رئیس گروه اطلاع رسانی پزشکی و منابع علمی

اردیبهشت ۱۳۹۷

# مجله

- ✓ به صورت دوره ای منتشر می شود.
- ✓ بصورت منظم و متوالی و با فاصله انتشار مشخص، دارای شماره و دوره و تاریخ معین در زمینه‌های گوناگون (اجتماعی، سیاسی، اقتصادی، فرهنگی، دینی، علمی، فنی، کشاورزی، پزشکی، هنری، ورزشی و ...).
- ✓ بیش از دو بار در سال منتشر می شود.
- ✓ در تهیه مطالب آن بیشتر از یک نفر مشارکت دارد.
- ✓ چاپ مقاله‌ها در هر دوره موجب گسترش و اشاعه اطلاعات و دانش در حوزه علمی خاص می شود.
- ✓ دارای شماره منحصر به فردی که به هر عنوان مجله اختصاص می یابد و هدف آن شناسایی عنوان است (ISSN).
- مجله تخصصی یا نشریه یا مجله (Journal)
- مجله عمومی یا (Magazine)

# انواع مجله ها بر اساس ترتیب انتشار

- ✓ هفتگی: هر هفته یک بار انتشار می یابد.
- ✓ دو هفتگی: هر دو هفته یک بار منتشر می شود.
- ✓ ماهنامه: هر ماه یک بار منتشر می شود.
- ✓ فصلنامه: هر سه ماه یک بار منتشر می شود.
- ✓ چهار ماهانه: هر چهار ماه یک بار منتشر می شود.
- ✓ دو فصلنامه: هر شش ماه یک بار منتشر می شود.

انواع مجلات بر اساس هزینه اشتراک

✓ پرداخت حق اشتراک و آبونمان

✓ رایگان

انواع مجله ها بر اساس قالب انتشار

✓ کاغذی (به شکل سنتی چاپ و انتشار می یابد)

✓ الکترونیکی (E-journal) (به صورت الکترونیکی روی اینترنت منتشر می شود)

✓ مجلات آنلاین با مقالات تصویری (مانند مجله JOVE)

# انواع مجلات از نظر سطح دسترسی

✓ مجلات دسترسی محدود

✓ مجلات دسترسی آزاد

## مجلات دسترسی محدود (Non-Open Access)

- عمده مجلات علمی را تشکیل می دهند.
- مقالات این مجلات به صورت رایگان در دسترس عموم قرار ندارند.
- برای چاپ یک مقاله علمی هزینه از نویسندگان دریافت نمی کنند.
- هزینه این مجلات از فروش مقالات چاپ شده در آنها تامین می شود.

# انواع مجلات از نظر اعتبار

✓ مجلات با داوری (Peer Review)

✓ مجلات بدون داوری (Non-Peer Review)

## مجلات Peer Review

- از اعتبار بالاتری برخوردارند.
- هر مقاله فرایند داوری مشخصی دارد (سطح و کیفیت مقالات توسط داوران بررسی می شود)
- به طور کلی چاپ مقاله در این مجله به زمان بیشتری نیاز دارد.

## مجلات Non-Peer Review

- فرایند داوری خاصی ندارند.
- تنها رعایت فرمت و موضوعات تحت پوشش مجله الزامی است.
- عمدتاً مجلات (Magazines) جزء این گروه می باشند.
- از اعتبار علمی چندانی برخوردار نیستند.

# معیارهای انتخاب یک مجله مناسب

## ۱- ترتیب انتشار مجله

✓ زمان داوری مقالات

✓ میزان بالای ارجاع به مقاله یا Citation.

البته بایستی به تعداد مقاله های چاپ شده در هر شماره نیز توجه نمود. به عنوان مثال هفته نامه ای که در هر شماره ۳ یا ۴ مقاله چاپ می کند با ماهنامه ای که در هر شماره ۱۲ مقاله چاپ می کند تفاوت چندانی نخواهد داشت.

## ۲- Scope مجله (تناسب بین اهداف کلی مجله و محتوای مقاله)

✓ بررسی محتوای مقاله های چاپ شده در شماره های قبلی مجله

✓ رجوع به قسمت about us در سایت مجله (تشخیص عناوین و موضوعات هر مجله برای چاپ)

# معیارهایی برای تعیین ناشرین متقلب

استانداردهای اخلاقی ایجاد شده توسط سازمان های عضو

✓ عدم رعایت اصول رفتاری انجمن ناشران علمی دسترسی آزاد (OASPA) چرا که اعضای انجمن ناشرین به اصول رفتار حرفه ای تصویب شده توسط هیأت مدیره پایبند می باشند.

✓ کمیته اخلاق انتشاراتی (COPE) ناشرانی که عضو کمیته اخلاق انتشاراتی نیستند و از آیین نامه مربوطه تبعیت نمی کنند.

✓ عدم رعایت اصول اخلاقی انجمن بین المللی ناشرین علمی، فنی و پزشکی (STM)

✓ عدم رعایت مالکیت معنوی و کپی رایت

## پرسنل مجله

✓ دو یا بیش از دو مجله دارای هیئت تحریریه تکراری اند (یعنی هیئت تحریریه یکسان برای بیش از یک مجله).

✓ پنهان کردن نام مالکان مجله نظیر صاحب امتیاز، مدیر مسئول، سردبیر، هیات تحریریه، عوامل اجرایی و ... و اطلاعات آکادمیک آن ها

## مدیریت کسب و کار

✓ارائه نکردن سند برای داوری مقالات

✓فرستادن ایمیل های اسپم برای پژوهشگران و داوران فاقد صلاحیت

✓ادعای انتشار مجلات علمی که وجود خارجی ندارند یا هنوز منتشر نشده اند

✓عدم وجود لینک در وب سایت موسسات ایندکس کننده برای ورود به سایت اصلی مجله

✓عدم همخوانی نشانی وب سایت مجله با نشانی ذکر شده در پایگاه های نمایه سازی معتبر

✓مجلات که حوزه موضوعی گسترده ای دارند و یا چند حوزه علمی را پوشش می دهند

✓توجه به تعداد شماره های چاپ شده (طبیعی است که یک مجله معتبر با چندین سال فعالیت تعداد شماره های زیادی دارد)

✓عمر کوتاه بسیاری از سایت های جعلی

## ج- یکپارچگی، درستی، امانت

- ✓ عدم همخوانی نام یک مجله با حوزه موضوعی آن
- ✓ عدم انعکاس منشا مجله بر اساس نام مجله (مثلاً در نام یک مجله کلمه Canadian وجود دارد که هیچ ارتباط مشخصی با کانادا ندارد).
- ✓ ادعای شاخص تأثیر در وب سایت بدون وجود اطلاعات در این زمینه در سایت های گزارش استنادی مجلات (مثلاً استفاده از View Factor و غیره به جای Impact Factor برای نشان دادن جایگاه بین المللی خود).
- ✓ ادعای دروغ نمایه در پایگاه های معتبر (مثلاً جستجوی نام و DOI مقاله چاپ شده در مجله بصورت تصادفی در پایگاه های نمایه سازی معتبر)
- ✓ استفاده ناشر از داوران پیشنهادی نویسنده مسئول بدون بررسی صلاحیت و صحت مدارک آن ها
- ✓ انتشار مقالات غیر آکادمیک و نوشته شده توسط افراد غیرعلمی
- ✓ اطلاعات مربوط به تماس «Contact Us» به روشنی در وب سایت ارائه نشده باشد.
- ✓ استفاده از عنوان مجدد

د- سایر

# چند راهکار

- آرشیو مقالات را بررسی و چک کنید و با سرچ کردن عناوین مقالاتی که در وب سایت قرار داده شده است مطمئن شوید که مقالات در جای دیگر چاپ نشده است .
- عنوان مجله را در گوگل جستجو کنید چرا که در برخی موارد در وب سایتها در مورد مجلات مطالبی درج می شود و ما با این کار به مطالبی که در وب سایت های انگلیسی به تقلبی بودن آن اشاره شده پی می بریم و یا بصورت ساده تر اسم مجله به اضافه hijacked را در گوگل جستجو کنید اگر آن وب سایت لو رفته باشد حتما مطالبی در این خصوص نوشته شده است.
- یکی از ویژگی های اصلی مجلات تقلبی عدم داوری و پذیرش های سریع مقاله می باشد و باید به این نکته توجه داشته باشید مجلات معتبر هیچ وقت به مقالات، بدون داوری پذیرش نمی دهد.
- مجلات تقلبی و جعلی برای ارسال مقاله ایمیل می دهند چرا که باید سریعاً متقاضیان خود را جذب کنند و تا زمانی که آن مجلات شناخته نشده اند سودهای کلانی را به جیب می زنند. و شما باید بدانید که مجلاتی که معتبر هستند برای جذب مقاله به دانشجویان و پژوهشگران ایمیل نمی دهند توجه داشته باشید ناشرین تقلبی از **ایمیل های رایگان** مانند یاهو و جی میل استفاده می کنند.

# استفاده از پایگاه اولریخ جهت شناسایی مجله

راهنمای بین المللی مجلات (Ulrich`s)

اطلاعات مجلات فهرست شده موجود و در حال چاپ را می دهد. (عنوان فعلی، عنوان قبلی، نام و آدرس ناشر، قالب های موجود، دوره انتشار، تاریخ شروع انتشار، فهرست نمایه هایی که مجله را نمایه کرده اند)

<http://www.ulrichsweb.com>

## ادامه

- تحلیل اطلاعات موجود در وب سایت مجله (صحت اطلاعات، صحت لینک ها، گستردگی موضوع و عدم وابستگی موضوعات مجله، عضویت در انجمن ها و پایگاه های معتبر، چاپ مقالات هیات تحریریه، سیاست مشخص کاری، آدرس ایمیل معتبر)
- استفاده از پایگاه های معتبر
- استفاده از لیست مجلات تقلبی و جعلی منتشر شده توسط وزارت بهداشت

<http://blacklist.research.ac.ir>

- توصیه مجله توسط اساتید مجرب و یا **واحد علم سنجی** دانشگاه

# گروه بندی نمایه نشریات

- نشریات نمایه شده در گروه یک:  
شامل ISI
- نشریات نمایه شده در گروه دو:  
شامل PubMed/Medline
- نشریات نمایه شده در گروه سه:  
Scopus, Embase, Chemical Abstract,  
Current Contents , Cinhal , PsychInfo , BIOSIS
- نشریات نمایه شده در گروه چهار:  
مانند DOAJ, Google Scholar, Index Copernicus

# Thomson Reuters صفحه نمایه مجلات در پایگاه

**CAS Source Index (CASSI) Search Tool**

The CAS Source Index (CASSI) Search Tool is an online resource intended to support researchers and librarians who need accurate bibliographic information. Use this free tool to quickly identify or confirm journal titles and abbreviations for publications indexed by CAS since 1907, including serial and non-serial scientific and technical publications.

**Save time and effort.** Locate the bibliographic details you need quickly and easily. Search by Title, Abbreviation, CODEN, ISBN, or ISSN. Note that there is a limit of 50 answers per search, so it is recommended that you make your search as specific as possible.

**What is Ulrichsweb?**  
Ulrichsweb is an easy to search source of detailed information on more than 300,000 periodicals (also called serials) of all types: academic and scholarly journals, e-journals, peer-reviewed titles, popular magazines, newspapers, newsletters, and more.

**What does it include?**  
Ulrichsweb covers more than 900 subject areas. Ulrich's records provide data points such as ISSN, publisher, language, subject, abstracting & indexing coverage, full-text database coverage, tables of contents, and reviews written by librarians.

**What are the linking options?**  
If your organization has enabled linking options, you can also use Ulrichsweb to explore your library's catalog or other locations where your library subscribes to serials resources.

# Directory of Open Access Journals: DOAJ پایگاه

<http://www.doaj.org>

The screenshot shows the homepage of the Directory of Open Access Journals (DOAJ). The page features a navigation menu with 'Search' and 'Browse' highlighted. A search bar is present with a magnifying glass icon and a link to 'Advanced Search'. Below the search bar, there are radio buttons for 'Journals' and 'Articles'. The main content area includes a central text box with a message about DOAJ's not-for-profit status and a call to donate. To the right, there is an orange banner celebrating '10 YEARS 2003-2013'. A sidebar on the right lists statistics: 9911 journals, 5593 journals searchable at article level, 121 countries, and 1516253 articles. Below the statistics is a 'News' section with three bullet points and an 'Archive' link.

DOAJ DIRECTORY OF OPEN ACCESS JOURNALS

DOAJ is entirely not-for-profit and survives solely on contributions. Please take 5 minutes to [DONATE to us](#). Help us to continue contributing to the visibility and dissemination of Open Access research and to making it the default for academic and scholarly publishing.

**IC Journal Master List**

[Home](#)

Scientific journal database – the **IC Journal Master List** – contains currently over 8,000 journals from all over the world, including 700 journals from Poland. The journals registered in this database underwent rigorous, multidimensional parameterization, proving high quality. The Ministry of Science and Higher Education acknowledged the IC Journal Master List by placing it on the list of scored databases, for being indexed in IC JML journals get additional points in the Ministry's evaluation process. Indexation in the IC Journal Master List database not only means additional points in the Ministry's evaluation but also gives you international promotion and prestige. We encourage you to take advantage of our professional knowledge on Scientific Journals Evaluation. Thanks to the IC JML reports you can learn how to improve the editorial quality and score a higher position in the

## About Embase - Boost your Biomedical Research

[Demo / Quote](#) [Login](#)

### The comprehensive biomedical database

For answers to your biomedical research questions, look to Embase

Embase's extensive journal and conference coverage, together with in-depth drug indexing and daily updates, supports tracking and precise retrieval of drug and disease information.

Exceptional search capabilities allow you to automate alerts, searching, and documentation, saving you time and ensuring you don't miss a thing. Because Embase delivers wide-ranging and timely access to needed information, you can be confident that your organization is compliant with all post-market regulatory requirements.

## Database Coverage List

"Core" coverage refers to sources which are indexed and abstracted in their entirety (i.e. cover to cover), while "Selective" coverage refers to sources with an occasional volume of material relevant to the field.

This title list does not represent all the Selective content found in this database. The Selective content is chosen from thousands of titles containing articles that are relevant to this subject.

\*Titles with 'Coming Soon' in the Availability column indicate that this publication was recently added to the database and therefore few or no articles are currently available. If the ‡ symbol is present, it indicates the rights holder.

### Please Note:

Publications included on this database are subject to change without notice due to contractual agreements with publishers. Coverage dates shown are the intended dates only and may not yet match those or dependent on publisher publication schedules (and in some cases embargo periods) in order to produce full text on its products.

## Global Health

"Global Health gives researchers and students unparalleled access to all the world's relevant public health research and practice - providing knowledge without borders"

**Now with over 2 million records!**

For comprehensive historic data, combine with [Global Health Archive](#) - access to premium historical research (1910-1983).

[www.cabdirect.org](http://www.cabdirect.org)

Overview 

The database's open serials policy and coverage of international and grey literature means that 40% of material contained in Global Health is unique to the database. Everything from proceedings, theses, electronic-only publications and other hard-to-find sources are included.

Global Health has a growing number of full text articles (over 38,000) from journals, conferences, and reports.

### Stay informed

**Highly Indexed Journal**  
Impact Factor: 0.474  
Peer Reviewed, Highly Cited  
Multidisciplinary

**About**  
Archives Des Sciences Journal (ADS) is a premier scientific journal that aims to publish original work of importance across a variety of disciplines, including: Engineering, Medical Sciences, Chemistry, Ecology, Health Science, Art and Humanities, Social Science, Mathematics, Physics, Technology and Computer Science. (ADS) is particularly interested in publishing works with international audience.

**Submission guide**  
Authors are required to check off their submission's compliance with Guidf lines

**Editorial Board**  
International diversity among the journal's contributing Editors and Editorial advisory board

**General Policies**  
Copyright on published articles is retained by the author(s)

**Peer Review Process**  
The journal uses single blind system

**Recruitment**  
We welcome referees who would be willing to act as reviewers

## KASMER A JOURNAL

REVISTA KASMER A (ISSN: 0075-5222) is a peer reviewed International Semiannual Journal published by the self finances independent department of ENFERMEDADES INFECCIOSAS Y TROPICALES, MARACAIBO, in VENEZUELA. The new English-Spanish edition of the journal covers a wide range of experimental, theoretical and general life sciences. All papers sent to Kasmera journal are double blind peer reviewed to ensure a high quality of scientific standards. Authors of accepted papers are required to pay a minimum publication charge based upon their paper length and number of the color

pages. Only top ranked peer reviewed accepted papers in the field of Medicine and Public Health are sponsored by the publisher to be included free of charge. The decision to elect the top ranked research articles are made upon the editorial votes for each issue.

Publication Ethics

**Original articles:** These should describe new and carefully confirmed findings, and experimental procedures should be given in sufficient detail for others to verify the work. The length of a full paper should be the minimum required to describe and interpret the work clearly.

**Short Communications:** A Short Communication is suitable for recording the results of complete small investigations or giving details of new models or hypotheses, gene isolation and identification, innovative methods, techniques or apparatus.

**Review:** Submissions of reviews and perspectives covering topics of current interest are welcome and encouraged. Mini-reviews are also peer-reviewed.

**Keywords:** Burning, Epidemiology, Prevalence, Risk factor, Burn injury

Abstract

**Introduction:** Burn injury is a unique trauma with life-threatening events and high morbidity. Burn injury has been identified as an important public health problem.  
**Objectives:** The present study aimed to characterize the epidemiological aspects of burn injuries in patients attended as outpatient or inpatients in an Iranian referral center.  
**Patients and Methods:** This cross-sectional study retrospectively reviewed 1000 records of burn injuries including 890 outpatient records and 110 inpatient cases. The study checklist was completed by reviewing the baseline characteristics including demographic data and the information on burning injuries.  
**Results:** Half of the patients in both outpatient and inpatient groups (52.1% and 55.6% respectively) were in the age range of 20 to 50 years. Regarding gender, 55.1% in the first group and 31.0% in the inpatient group were male. In patients who attended as outpatient, the most common majority of burn injuries were categorized in second-degree burnings that mostly occurred at home. The most frequent zones of the body suffered from burning include upper and lower extremities.  
**Conclusion:** The efficiency of our findings can create opportunities for reducing prevalence of burning and also to control potential risk factors for burning leading to decrease in costs of burning management.

**Citation:** Taheri MS, Aghakhani K, Memarian A, Fatemi SMJ, Vahidian M. Epidemiological aspects of burning in both outpatient and hospitalization settings; a cross-sectional study. *J Prev Epidemiol.* 2018;3(2):e06.

**Introduction**

Burn injury is a unique trauma with life-threatening events with high morbidity. Burn injury has been identified as an important public health problem (1,2). The overall incidence of burning has been estimated to be about 1% of burden of disorders and ranked as the fourth disabling injuries (3). It also consists of a majority of attendances to emergency wards (1). Burning not only

**Core tip**

In a study on 1000 patients with burning, we found, the most common causes of burning were burning with boiling water followed by hot materials and hot foods. The majority of burn injuries were categorized in second-degree burnings that mostly occurred at home in the age range of 20 to 50 years.

aspects of burning because of collecting data
